Clarks Are Healthy and Accepting Reality

fortunate that West Coast regional detention facilities have beautiful surroundings

That’s right! We are writing to our friends and family from Sierra Detention Facility 331 since the authorities discovered that we didn’t support Trump enough. We early arrivals have been calling ourselves The Donner Party. Humor keeps us alive sometimes. We aren’t required to report at “camp” until Spring 2017 but we visited the area last summer and couldn’t wait to get back! We figured that wintering over at Donner Pass was a fitting end to 2016; we are counting our blessings that we were assigned to serve our four-year sentence in such scenic country.

Sara is still working on her Environmental Studies major at the University of Washington; while she represents the northern branch of the family, Caleb and Amy hold down the fort in San José. Weekends have been kept occupied with a bunch of home improvements and other (let's be honest amongst ourselves) *nerdy* projects.

2016 saw a 25th anniversary float by. Our wedding photo album had some pictures but we don't recognize those baby-faced strangers. But whatevs, any excuse for a celebration, right?

Clark Chronicle Poll: Which Dystopia Are We Living?

Idiocracy:.....	28%
(a bit on the nose)	
Back To The Future II:.....	24%
(how did we end up in the timeline where Biff wins?)	
A Clockwork Orange:.....	19%
(that Russian-influenced Nadsat tho)	
Red Dawn:	11%
(have to figure out if the Soviets are still the bad guys)	
Game of Thrones:	11%
(film lit dissertations will be written comparing Joffrey and DJT)	
Stranger Things:	7%
(OK I will admit it: Trump's America isn't as bad as the Upside Down)
